HELPING AT HOME...

**Our core values are built on being passionate
pet owners.**

Walking Palm Pet Caves were created because we
wanted something better to look at than a boring square
pet bed. Not only are our caves a great addition to your
décor, but they were built with your pet's health in mind.
Everything from the wool to the dye is completely organic
and crafted together completely by hand. Why choose
between beautiful and functional when you can have
both?

... AND ABROAD

Help make a difference in the world!

Don't just buy our products because they are amazing,
buy from a company you can be proud of... We are
thrilled to use our business as an economic opportunity
to provide better lives for our extended family in Nepal.

**We hand craft all of our products with our friends in
Kathmandu, Nepal, and we pay 200% of the average
wage** – They are truly an extension of our family, and our
continued partnership with their community has given us
the great gift of seeing that community grow and thrive
economically.
